Subject: For REVIEW - Federalism consultation invitations (6 chemicals) - COB WEDS 2/3

Hi Tanya, Brian, and Sheila –

Attached for review jointly from RMB1 and RMB3 are federalism consultation invites and factsheets for 6 chemicals. **Your review is requested by COB 2/3. Target for OD signature is 2/17.** These draft letters are NOT prepared for signature – we have placeholders for dates pending OCIR feedback. See notes below. However, review of the substance of the letters and factsheets now will keep us on track for timely signature.

Notes to inform your review:

- Colored text in the fact sheets is intentional and shows chemical-specific information vs. template
- Chemical-specific information is largely similar to the information that appeared in the tribal consultation fact sheets recently sent forward
- OCIR staff has reviewed these documents and edits are incorporated
- The fact sheets incorporate OCSPP IO edits to other documents to remove specific references to E.O.s related to EJ and tribes
- OGC has reviewed the fact sheet template
- We will be presenting 3 chemicals at a time. Meeting #1 is targeted for mid-March, Meeting #2 is targeted for late March or early April. OCIR has the lead on identifying dates based on the invited audience's schedule.

Attached:

- Invitation letter: TCE, PCE, NMP (1 meeting, 3 chemicals)
 - o Fact sheets – 1 for each chemical
- Invitation letter: Asbestos part 1, PV29, 1,4-dioxane
 - o Fact sheets – 1 for each chemical

Thanks –

Niva
